

Welcome

We hope this issue finds you safe and well

Welcome to our new look newsletter – HSfB Noticeboard.

HSfB has recently celebrated its third birthday (17 March), and to mark this occasion we have re-launched our newsletter with a new design. We hope you like it. The re-launch of the main site will follow soon! As HSfB goes from strength to strength, we look forward to another year of helping keep people safe with the amazing help and support from each and every one of you. Thank you!

Your Articles

Have you created any articles relating to health and safety at work? Would you like to publish them on HSfB in the hope that they may help somebody in the future? If so, let us know and your article will be published in **Your Articles** pages. We will publish your articles, long or short, as long as they relate to health and safety at work in some way or another. You may be a specialist in a particular subject, or you simply want to take an interest in something, research it and write about it.

Send you articles to: hsfb@healthandsafetytips.co.uk

Health and Safety In Voluntary Sector Scotland (HaSIVSS)

Health and Safety In Voluntary Sector Scotland (HaSIVSS) is a group of Health & Safety professionals representing a range of voluntary organisations in Scotland. We meet regularly to discuss matters which concern us all and listen to guest speakers on a variety of subjects. Our website is another way for us to keep in touch, to offer each other support and encouragement, to share information and allow others the opportunity to join us.

Martin's Story - the lasting consequence of an accident – FREE OFFER

The Step Change Hazard Recognition and Risk Awareness Workgroup has launched a new DVD to highlight the consequences of an accident and the impact it has both in the short and long term on everyone involved.

Martin's Story, an 8 minute DVD, produced by GlobalSantaFe, reveals the events of a real life incident offshore and the impact of the accident on Martin, his family, friends and work colleagues. The DVD is a valuable tool to create discussion and understanding about the effect of an accident and how we all identify, understand and deal with hazards in the workplace.
